CME ACCREDITATION for PHYSICIANS (MDs and DOs) & PAs

This live activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of the AMDA – The Society for Post-Acute and Long-Term Care Medicine and the Florida Medical Directors Association. AMDA is accredited by the ACCME to provide continuing medical education for physicians.

Designation Statement: AMDA – The Society for Post-Acute and Long-Term Care Medicine designates this educational activity for a maximum of 22.0 AMA PRA Category 1 Credits™. Physicians should claim credit commensurate with the extent of their participation in the activity.

CMD Statement: This seminar has been approved for a total of 23.0 credit hours toward certification as a Certified Medical Director in Long-Term Care (CMD). 11.0 credits have been designated as Management education credits and 12.0 hours have been designated as Clinical education credits. The AMDA CMD program is administered by the American Medical Directors Certification Program. Each physician should claim only those hours of credit actually spent on the activity.

This program will be submitted to CE Broker for both the Florida Board of Medicine and Florida Board of Osteopathic Medicine.

American Osteopathic Association Credit: This program has been approved by the American Osteopathic Association for a total of 23.0 hours of AOA Category 2-A credits.

PHARMACIST CONTINUING EDUCATION

The University of Florida College of Pharmacy is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education. The total pharmacy CE credit applied for at the time of brochure printing is currently being determined. Some sessions run concurrent to one another. Pending approval, participants must attend a session in its entirety and evaluate the session to receive continuing education credit for that session.

Florida Consultant Recertification: Accreditation of the program for consultant pharmacist recertification is pending at the time of brochure printing.

CONTACT HOURS for NURSE PRACTITIONERS

This activity has been submitted to the Alabama State Nurses Association (ASNA) for a total of 23.0 contact hours of continuing education and 22.0 maximum participant hours. ASNA is accredited as an approver of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

CONTACT HOURS for NURSE ADMINISTRATORS, FLORIDA LICENSED NURSES, and LONG-TERM CARE ADMINISTRATORS

This educational program has been submitted to the Florida Association Directors of Nursing Administration/LTC – Florida Department of Health, Division of Medical Quality Assurance (Florida Board of Nursing/Florida Board of Nursing Home Administrator CE Broker Provider ID Number 50-682) for a total of 23.0 contact hours of continuing education and 22.0 maximum participant hours.

Best Care Practices in the Geriatrics Continuum

Annual Program Description

This program is designed to provide a review and update of major geriatric diseases, illnesses, and risks found in nursing home patients, residents of assisted living facilities, those under hospice care, and seniors living at home. The underlying theme this year is Future Directions: Transforming Long-Term Care. Clinical topics covered this year include: ▲ Weight Management in the Elderly: Nuances of Aging and Cardiovascular Disease ▲ Managing Depression and Mood Disorders ▲ Rethinking Dementia Care: A Person-Centered Approach to Behavioral Expressions ▲ Dysphagia Treatment Options with Roundtable Case Studies ▲ Advances in the Management of Infection Control & Infectious Disease in LTC ▲ Diabetes Mellitus – An Evidence-Based Update ▲ How(L) About Vitamin D, and ▲ Preventing Prescribing Cascades. Administrative topics will cover: ▲ The Future of Geriatrics and LTC ▲ Regulatory & Survey Update for Clinicians and Providers ▲ A Conversation with Our National Leaders ▲ Public Policy Lecture ▲ Core Aspects of Medicare Billing & Coding ▲ An Update on the Future of POLST (physician orders for life-sustaining treatments), and ▲ Advanced Illness: What is it? How do you know who has it? And, what can you do about it?

Target Audience

This conference is designed to educate physicians, physician assistants, nurse practitioners, directors of nursing in LTC, registered nurses, senior care pharmacists, consultant pharmacists, and long-term care administrators, as well as geriatricians, primary care and home care physicians, physicians considering becoming long-term care medical directors, hospice medical directors, or home care medical directors, and others with an interest in geriatrics and its continuum of care. The faculty includes national and regional authorities in the fields of medical direction, senior care pharmacology, as well as long-term care and geriatric medicine.

Annual Program Objectives

Upon completion of the “Best Care Practices in the Geriatrics Continuum” conference, participants should be able to:

1. Discuss the professional challenges facing medical directors, attending physicians, nurse practitioners, consultant pharmacists, directors of nursing, and administrators practicing in the continuum.
2. Describe the advances in theoretical and clinical knowledge impacting individuals affected by medical issues in the long-term care continuum.
3. Discuss the current and emerging national issues and public policy efforts of AMDA – The Society for Post-Acute and Long-Term Care Medicine and the American Society for Consultant Pharmacists.
4. Describe examples of evidence-based practice and multidisciplinary approaches to enhance outcomes in various health care settings.
5. List examples of evidence-based practice as it pertains to postacute and long-term care medicine.

Silent Auction to Support Scholarships

For many years, FMDA has taken an active role in outreach efforts to residents, interns, fellows, and young-career physicians with an interest in long-term care. Through its Careers in Long-Term Care Awards, it has sought to encourage, nurture, and mentor these medical professionals.

FMDA will be hosting another silent auction during this year's annual trade show. All proceeds will benefit FMDA's Careers in Long-Term Care Awards and AMDA's Futures Program.

FMDA is now accepting items to be auctioned off at the conference. If you would like to support this worthy effort, please contact the business office at (561) 689-6321.

* CE/CME credit will not be available for this session. In compliance with PhRMA guidelines, spouses and other guests of healthcare professionals are not permitted to attend company-sponsored programs. Certain restrictions apply.

The Younger Adult in the Long-Term Care Setting

WORKSHOP DATE/TIME: 1:30-4:45 p.m., Thursday, October 16

OVERVIEW: Long-Term Care (LTC) is no longer synonymous with “geriatric care.” In the past 10 years, adults aged 31 to 64 have been the fastest growing population in nursing homes. The last national nursing home survey sponsored by the CDC in 2008 estimated that nearly 12% of nursing home residents are younger than 65 years.

For this workshop, we define younger as those aged 18 to 64 years. Younger adults are differentiated from their older counterparts in more ways than merely age. Compared with older residents, younger adults in LTC have: 1. More diagnoses related to mental retardation and developmental disabilities, 2. A higher prevalence of hemiplegia and quadriplegia, especially related to trauma, 3. An increased prevalence of chronic and neurological disorders, such as Huntington’s disease (HD), muscular dystrophy (MS), Amyotrophic lateral sclerosis (ALS), cerebrovascular accident, Alzheimer’s disease, Parkinson’s disease, peripheral vascular disease, and cardiac diseases, 4. Psychiatric diagnoses at significantly higher levels, and 5. More likely to have residential histories of prior stays in psychiatric facilities

In general, the younger residents of LTC fall into three general groups on the basis of the etiology of their illnesses and disabilities, which require different approaches by LTC staff. The main categories of younger adults are those with 1. Illnesses from capricious fate, including chronic, progressive, psychiatric, or neurologic illnesses such as MS, HD, ALS, or schizophrenia that they have been coping with for years; 2. Illness and possibly institutionalization from birth or childhood; or 3. A sudden onset of physical problems related to injury (such as a traumatic brain injury), misfortune, or lifestyle choices.

AMDA’s The Younger Adult in the Long-Term Care Setting Information Toolkit addresses questions that must be considered by LTC organizations in the care of younger adults, including the following: 1. What are the care needs and goals of care for these patients? 2. How will these residents’ psychological, social, psychiatric, sexual, and other basic human needs be met? 3. How do facilities assist younger residents in coping with the possibility of spending 30, 40, or even 50 years or more of their life in a nursing home? and 4. What activities does the facility offer specifically for younger adults?

SPEAKERS: We are very fortunate to feature our wonderful experts including Rebecca Ferrini, MD, MPH, CMD; Medical Director, Edgemoor DP SNF, San Diego, CA; and chair of the AMDA workgroup that developed this toolkit, Polly Weaver, BS; Chief of Field Operations, Division of Health Quality Assurance, Florida’s Agency for Health Care Administration, Tallahassee, FL; and Diane Sanders-Cepeda, DO; Associate Medical Director, Optum Florida

TARGET AUDIENCE: Physicians • PAs • Pharmacists • Nurse Practitioners
• Nurses • QIO Managers • Directors of Nursing • Long-Term Care Administrators

— The toolkit is designed for use by all professionals of the interdisciplinary team, including practitioners and medical directors, social workers, nurse clinicians and administrators, psychologists, and recreational and rehabilitation professionals, and aims to be practical rather than theoretical. The toolkit also addresses problem-solving methodology that can be applied to other populations and concerns within the LTC field.

SPACE IS LIMITED: This workshop is optional and not included in your full registration fee. In addition, the purchase of the AMDA toolkit is optional as well.

Conference Hotel Headquarters

Disney’s Grand Floridian Resort

HOTEL RESERVATIONS: FMDA has reserved a block of rooms at Disney’s *Grand Floridian* Resort. The group rate is \$185 single/double occupancy; complimentary self-parking; complimentary Wi-Fi service in guest rooms, meeting rooms, and common areas; and no daily resort fee.

To make a reservation, please call Disney’s *Grand Floridian* Resort Group Reservations, (407) 939-4686, and mention you are attending the Florida Medical Directors Association’s Best Care Practices conference. To guarantee rate and room availability, you must make your reservations no later than **Sept. 15, 2014**. This special group rate will be applicable three (3) days prior to and three (3) days following the main program dates, subject to availability. You may also reserve your hotel room at www.bestcarepractices.org/venue.html.

Victorian elegance meets modern sophistication at this lavish bayside resort hotel. Relax in the sumptuous lobby as the live orchestra plays ragtime, jazz, and popular Disney tunes. Bask on the white-sand beach, indulge in a luxurious massage, and watch the fireworks light up the sky over Cinderella Castle. Just one stop to Magic Kingdom park on the complimentary Resort Monorail, this timeless Victorian-style marvel evokes Palm Beach’s golden era.

Please note that FMDA is financially responsible for all hotel rooms reserved in its group block. Any rooms not sold are still billed to FMDA in the form of attrition. We ask for your support in booking at the conference hotel to ensure we fill the room block so we can continue to offer discounts to our attendees. We ask that you reserve hotel rooms realistically and cancel any unneeded rooms with as much notice as possible. Thank you!

Mobile Conference Application (App)

Please download our custom mobile application designed for use on smart phones, tablets, Apple devices, and personal computers. The app is intended to better connect people with the association and give members a helpful resource that they can use on-the-go. It contains many useful features, as well as tabs for this annual conference, including the handouts. The app is available as a free download from iTunes and Android stores by searching for “FMDA.”

Handouts will be available at www.bestcarepractices.org, so you may print them without charge before you get to the conference. CDs of the handouts will NOT be provided. If you prefer, for an extra charge of \$55, you may order a set of handouts when you pre-register, and they will be ready for you when you arrive at the conference. However, please be aware that we cannot ensure the availability of every PowerPoint presentation or handout for every session.

Here's How Attendees Described "Best Care Practices in the Geriatrics Continuum"

This is consistently one of the best conferences that I have ever attended in my greater than 20 years of practice. Looking forward to next year.

— **Blair H., MD, CMD; Asheville, NC**

Once again, FMDA has brought together a state-of-the-art conference on geriatric care that is unsurpassed by any other medical organization.

— **Michael M., MD; Winter Garden, FL**

I have attended the Best Care Practices meetings several times as a medical student and resident — such a valuable source of information!

— **Elizabeth H., DO; Miami, FL**

I think this is a great program.

— **Johanna S., PharmD; Tampa, FL**

Best Care Practices is always in the forefront providing relevant up-to-date information in geriatric medicine.

— **Maria G., MD; Orlando, FL**

Great presentations. Very practical!

— **Marigel C., RPh; Cleveland, OH**

Best overall conference!

— **Jack M., MD, CMD; Palatka, FL**

Great conference to interact with peers from the southeast.

You understand that as different as we are, the more we are alike. Quality care for less dollars.

— **Patrick M., MD, CMD; Valley, NE**

This is the best conference I've attended. I have been attending FMDA for the past years and look forward to it every year. I highly recommend it to colleagues. I feel FMDA is a good resource to enhance my day to day practice. Great organization.
